

VITAMIN C w/ROSE HIPS

1,000 MG CAPSULES

A daily supplement regimen with vitamin C offers powerful protection against free radical damage, helps keep capillary walls and blood vessels strong, and supports healthy teeth, gums, and bones. Because vitamin C is water-soluble, it needs to be replenished on a daily basis. Human beings are unable to produce Vitamin C, unlike other mammals.

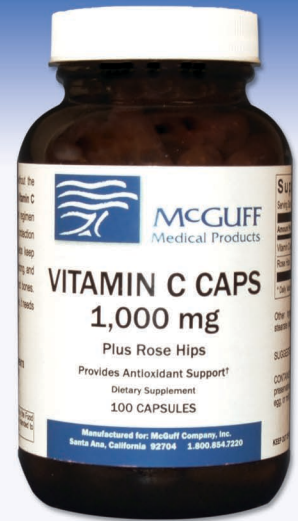

The anti-inflammatory properties of rose hips are well established, recently shown useful in patients with knee or hip osteoarthritis. Rose hips contain carotenoid pigments, plant sterols, tocotrienols, anthocyanins, catechins,, known phytochemicals to protect against cancer and cardiovascular disease.

PRODUCT SPECIFICATIONS

- McGuff Item #008426
